C~Flex™ H~Drive™ C~Tip™

Introducing Cingular's C~Flex™, C~Tip™ & H~Drive™

Simply efficient, Cingular's new flexible driver with single use drill tips and hex drive attachment all using a bayonet cup link fitting for quick and simple use.

The key feature of the C~Flex is the ability to decontaminate the device after surgical use. C~Flex is completely cannulated and the chain link shaft design allows sterilising departments to wash out any debris after surgical use – unlike traditional coil reamers that are very difficult if not impossible to decontaminate.

C~Tip bayonet drill bits are sterile packed single use ensuring surgeons have cutting tools that are sterile, sharp and effective in drilling first time every time no exceptions.

H~Drive (Howie Drive) allows the surgical staff to interchange the C~Tip with the H~Drive for insertion of acetabular cup hip screws.

The system has been designed to meet surgical staff ease of use and now hospitals can do away with difficult to clean coil type reamers and drivers.

PRODUCT CODES	
COFDBY001	C~Flex - Flexible shaft with Bayonet Fitting NON Sterile
COHD35001	H~Drive 3.5mm Hex Drive NON Sterile
MDFTCB32035	C~Tip 3.2mm x 35mm Sterile x 1
MDFTCB32045	C~Tip 3.2mm x 45mm Sterile x 1
MDFTCB32055	C~Tip 3.2mm x 55mm Sterile x 1
MDFTCB32065	C~Tip 3.2mm x 65mm Sterile x 1

DRILL BIT SIZE (A)	FOR SCREW (MM)
35	20MM
45	30MM
55	40MM
65	50MM
